

## St James Sports Premium Funding 2021/22

As a school we receive £19,900 to help support the delivery of a high quality PE curriculum and make additional and sustainable improvements to the quality of PE and sport offered. Here is a breakdown of expenditure:

Key objectives and anticipated benefits	Specific year group/key groups to be targeted	Proposed outside agencies/ companies involved	Anticipated Cost
Further engage all pupils in regular physical activity – kick-starting healthy active lifestyles			
<ul style="list-style-type: none"> <li>➤ Top up swimming lessons for Year 5 children. This cohort have had reduced hours in the water due to Covid-19 restrictions and lock downs. Therefore additional swimming lessons have been arranged.</li> <li>➤ To encourage children to participate in after school clubs we will contribute a set amount of money aside to reduce the cost of after school sports clubs.</li> <li>➤ To increase the activity levels of children by using fitness trackers whilst in school. Work focused around the importance of a healthy, active lifestyle. (Also linked to PSHE). The activity trackers last year were a huge success but burdensome for staff. Therefore, we will invest in Moki bands for the entire KS2 population. Bands are worn by the children in school and track steps and minutes of moderate to vigorous physical activity (MVPA). The app generates reports that can be sent to parents and can send live data to our school website. This will also create competitiveness within the class and across year groups.
